Re: 1987 Crusader 350 ci. 270hp w/ V-drive : opinions? Very solid and reliable setup if maintained. My Silverton has the same Crusader small blocks but with straight shaft Velvet Drives. V-drives are reliable but have more moving parts, thus more to go wrong. In some boats they can also be difficult to service without pulling an engine.

1987 Crusader Engine Manual - andreschellen.nl

I can plane at 2000RPM in my new to me 1987 36' Mainship 20K semi-displacement hull which will produce about 16mph. The boat seems to run well there but I've had advice that the engine is working too hard cruising at such a low RPM. The prop is OEM. Original mainship manual suggests a cruising speed of +/- 20 mph with top end at 30mph. I'm interesting in hearing opinions.
