So 90% of children of the same age

Read PDF 47mb 90 Percent Of Everything Rose George

would be smaller than them, and only 10% bigger. It's just a way of comparing a baby or child's expected growth against other children of the same age. Has to be taken with a pinch of salt as obviously generational trends and the increase in child obesity means that there are far more kids than before weighing/measuring in well above the average for their age.
