A. N. Whitehead and Social Theory: Tracing a Culture of ...

The contemporary importance of A. N. Whitehead (1861|1947) lies in his direct yet productive challenge to the culture of thought inherent in modernity, a challenge that suffuses science, social theory and philosophy alike. Unlike some of the more destructive aspects of postmodernism and poststructuralism, Whitehead's diagnosis of the conceptual fault lines of the modern era does not entail a passive relativism.

Alfred North Whitehead (1861|1947) was the most sociological of philosophers. This in two ways: first, he viewed all enduring things as 'societies'; second, he believed that one major role of theory is to challenge the deepest preconceptions and assumptions which permeate our attempts to understand and explain the world.
