Footsteps in the Dark is a light-hearted 1941 mystery film starring Errol Flynn as an amateur detective investigating a murder.

~~Footsteps in the Dark (film) - Wikipedia~~

The bottom line is that unconventional monetary policies that move away from repairing markets or institutions to changing prices and inflationary expectations seem to be a step into the dark. Of course, central bankers could argue that their bread and butter business is to change asset prices and alter inflationary expectations.
