You'll stay up late reading until you know." –People (4 stars) Memories define us. So what if you lost yours every time you went to sleep? Your name, your identity, your past, even the people you love—all forgotten overnight. And the one person you trust may be telling you only half the story. Welcome to Christine's life. Every morning, she awakens beside a stranger in an unfamiliar bed. She sees a middle-aged face in the bathroom mirror that she does not recognize. And every morning, the man patiently explains that he is Ben, her husband, that she is forty-seven-years-

old, and that an accident long ago damaged her ability to remember. In place of memories Christine has a handful of pictures, a whiteboard in the kitchen, and a journal, hidden in a closet. She knows about the journal because Dr. Ed Nash, a neurologist who claims to be treating her without Ben's knowledge, reminds her about it each day. Inside its pages, the damaged woman has begun meticulously recording her daily events—sessions with Dr. Nash, snippets of information that Ben shares, flashes of her former self that briefly, miraculously appear. But as the pages

Rolling with the Royces is running out of ways to keep viewers hooked and suddenly the show is threatened with cancellation. Bentley faces an impossible choice. Without the show, she could live the college dream – but her family would crumble (they are already twenty million dollars in debt). Bentley Royce has a mission. She must use her brains to save the show; if she saves the show, she can save her

family – and she'll do whatever it takes ... Royce Rolls is a laugh-out-loud funny romp with a twist of mystery – a behind-the-scenes comedy with a brilliant voice, a hilarious and subversive antidote to the Kardashians and TOWIE (which will still work for fans of both!).
