Instrument Study Guide

Training Circular (TC) 3-04.5, "Instrument Flight for Army Aviators," is specifically prepared for aviators authorized to fly Army aircraft. This manual presents the fundamentals, procedures, and techniques for instrument flying and air navigation. TC 3-04.5 presents fundamentals, procedures, and techniques for instrument flying that are essential to the effective conduct of military operations and creates the ability to enable commanders to make risk decisions in less than optimal weather while preserving combat power. This publication is written for Army Aircrews to develop a fundamental understanding of knowledge and skills necessary to operate in instrument meteorological conditions (IMC). TC 3-04.5 is an excellent reference for Army aircrews; however, it cannot be expected that this training circular is all inclusive or a full comprehension of the information will be obtained by simply reading the text. TC

Instrument Study Guide

3-04.5 facilitates adherence to Army regulation (AR) 95-1 by providing guidance and procedures for standard Army instrument flying. Aircraft flight instrumentation and mission objectives are varied, making instruction general for equipment and detailed for accomplishment of maneuvers. Guidance found in this manual is both technique and procedure oriented. Aircraft operator manuals provide the detailed instructions required for particular aircraft instrumentation or characteristics. When used with related flight directives and publications, this publication provides adequate guidance for instrument flight under most circumstances but is not a substitute for sound judgment; circumstances may require modification of prescribed procedures. Aircrew members charged with the safe operation of United States Army, Army National Guard (ARNG), or United States Army Reserve
