ERA Award 2014 Finalist: Best Secondary Resource Non-ICT Conflicting government diktat and changeable Ofsted frameworks means that navigating the path to outstanding can be challenging. However, the integrity of an outstanding lesson will always be the same and this book attempts to bottle that formula so that you can recreate it time and time again. In his first book, Twitter phenomenon and outstanding teacher, Ross Morrison McGill provides a bank of inspirational ideas that can be picked up five minutes before your lesson starts and put into practice just as they are, or embedded into your day-to-day teaching to make every lesson

an outstanding lesson! In his light-hearted and enthusiastic manner Ross guides you through the ideas he uses on a daily basis for managing behaviour, lesson planning, homework, assessment and all round outstanding teaching. Whether you are an experienced teacher or someone who has little practical teaching experience, there are ideas in this book that will change the way you think about your lessons. Ideas include: Snappy starters, Open classroom, Smiley faces, Student-led homework, Monday morning mantra and the popular five minute lesson plan. The 100 ideas series offers busy secondary teachers easy to implement, practical strategies and activities to improve and inspire their classroom practice. The bestselling series has been relaunched with a brand new look, including a new accessible dip in and out layout. Features include: Teachers tips, Taking it further tips, Quotes from the Ofsted framework and teachers, Bonus ideas, Hashtags and online resources.

This title covers the entire syllabus for Cambridge International Examinations' International AS and A Level Biology (9700). It is divided into separate sections for AS and A Level making it ideal for students studying both the AS and the A Level and also those taking the AS examinations at the end of their first year. - Explains difficult concepts using language that is appropriate for students around the world - Provides practice throughout the course with carefully selected past paper questions at the end of each chapter We are working with Cambridge International Examinations to gain endorsement for this title.

The present book is an authoritative and authentic source for the study of Indian coins. It not only describes the coins but also studies them critically in all their aspects. The points which are dealt with here are on numismatic studies in India; Satamana and Sana; Kautilya and Buddhaghosa on coins; silver coins of Vasisthiputra Satakarni; alleged coins of the Mahisa kings; coins of semi-independent rulers; date of Isvaradatta's coins; Petluripalem hoard; some problems of tribal coins; coins of Kumaragupta I, Harigupta and Ramagupta; coins of Muhammad bin Sam and Prthviraja; coins of Kakatiya Prataparudra I; Gajapati Pagoda, Ganga Fanam and Ramatanka; coins of Bhairavasimha; Maratha mint under the Peshwas; Cowrie-shell, rupee and pice. In describing the features of a particular class of coins from the standpoint of standard, style and fabric or in discussing the significance of the numismatic terms, the author has utilized the literary data which have a bearing on them.

For over 40 years, Warship has been the leading annual resource on the design, development, and deployment of the world's combat ships. Featuring a broad range of articles from a select panel of distinguished international contributors, this latest volume combines original research, new book reviews, warship notes, an image gallery, and much more, maintaining the impressive standards of scholarship and research with which Warship has become synonymous. In the 2019 edition of this celebrated title, articles include Hans Lengerer's exploration of the genesis of the Six-Six Fleet, Michele Cosentino's look at Project 1030, Italy's attempt to create a torpedo-armed attack and ballistic missile submarines, and A D Baker III's drawing feature on the USS Lebanon. Detailed and accurate information is the keynote of all the articles, which are fully supported by plans, data tables and stunning photographs.

Humble beans are the true MVPs of the kitchen. They have a long shelf life, are packed with protein, and best of all, they taste great in a wide variety of applications. This collection of 20 foolproof recipes gives beans their due, putting them center stage in recipes such as Ultracreamy Hummus (you've never had homemade hummus this velvety-smooth) and White Bean and Tuna Salad (two pantry-friendly ingredients come together for a dish that's greater than the sum of
