career-whether as a surgeon, a software engineer, or a plumber. But according to Subroto Bagchi, our increasingly global marketplace demands more. In a world where the foolish, selfish, and unethical decisions of a few have affected the lives of millions, The

the merely competent.

These include: *Suffer no false attractions:

their energy, or their creativity. *Take the long view: True professionals understand that every action, decision, and relationship, no matter how small, can have a lasting impact.
