Michael Swanson's online discussions with literally thousands of NexStar owners made it clear that there was a desperate need for a book such as this - one that provides a complete, detailed guide to buying, using and maintaining NexStar telescopes. Although this book is highly comprehensive, it is suitable for beginners - there is a chapter on "Astronomy Basics" - and experts alike. Celestron's NexStar telescopes were introduced in 1999, beginning with their first computer controlled "go to" model, a 5-inch. More models appeared in quick succession, and Celestron's new range made it one of the two dominant manufacturers of affordable "go to" telescopes.

This special edition has been designed specifically for aspiring astronomers living south of the equator. This book explores the planets, stars, galaxies and nebulae observable from the southern hemisphere. Not only does this book illustrate how to observe, it also shows how each object appears through a small telescope!

Aperture 160 Summer 2000 In this, the second issue of the new "Aperture," the dynamic format of the magazine is employed to explore the different ways in which our right to see is mediated. Issue 160 includes a striking collection of images selected from the

This book works. It shows that that the naughty step, sticker charts and controlled crying are NOT the only solutions. Many parents struggle with getting their toddlers to sleep, picky eaters; respect; tantrums; discipline; throwing; biting; hitting, communication... All this is normal. What is important is that you don't base your whole relationship with your child on rewards and punishment. ToddlerCalm is about gentle parenting. It will give you a proven and successful alternative approach to creating a calm and happy family.

A gripping and atmospheric novel of suspense, set in the Scottish Highlands in the 1950s, featuring a small-town newspaper staff. In the Highlands of 1950s Scotland, a boy is found dead in a canal lock. Two young girls tell such a fanciful story of his disappearance that no one believes them. The local newspaper staff—including Joanne Ross, the part-time typist embroiled in an abusive marriage, and her boss, a seasoned journalist determined to revamp the paper—set out to uncover and investigate the crime. Suspicion falls on several townspeople, all of whom profess their innocence. Alongside these characters are the people of the town and neighboring glens; a refugee Polish sailor; an Italian family whose café

boasts the first known cappuccino machine in the north of Scotland; and a corrupt town clerk subverting the planning laws to line his own pocket. Together, these very different Scots harbor deep and troubling secrets underneath their polished and respectable veneers—revelations that may prevent the crime from being solved and may keep the town firmly in the clutches of its shadowy past.
