which the charge nurse delegates to the LPN/LVN or the LPN/LVN assigns tasks to unlicensed assistive personnel. Focused Assessment boxes include information on history taking and psychosocial assessment, physical assessment, and guidance on how to collect data/information for specific disorders. Elder Care Points boxes address the unique medical-surgical care issues that affect older adults. Legal and Ethical Considerations boxes focus on specific disorder-related issues. Safety Alert boxes highlight specific dangers to patients related to medications and clinical care. Clinical Cues provide guidance and advice related to the application of nursing care. Think Critically About boxes encourage you to synthesize information and apply concepts beyond the scope of the chapter. Concept Maps in the disorders chapters help you visualize difficult material and illustrate how a disorder's multiple symptoms, treatments, and side effects relate to each other. Health Promotion boxes address wellness and disease prevention, including diet, infection control, and more. Complementary and Alternative Therapies boxes offer information on how nontraditional treatments for medical-surgical conditions may be used to complement traditional treatment. Cultural Considerations promote understanding and sensitivity to various ethnic groups. Nutrition Considerations address the need for holistic care and reflect the increased focus on nutrition in the NCLEX Examination. Patient Teaching boxes provide step-by-step instructions and guidelines for post-hospital care. Home Care Considerations boxes focus on post-discharge adaptations of medical-surgical nursing care to the home environment. Mental Health Nursing unit includes information on disorders of anxiety and mood, eating disorders, cognitive disorders, thought and personality disorders, and substance abuse. Disaster Management content includes material focusing on preparation and mitigation to avoid losses and reduce the risk of injury associated with both natural and bioterrorist disasters. Nursing Care Plans with Critical Thinking Questions show how a care plan is developed and how to evaluate care of a patient. Review questions for

the NCLEX-PN Examination at the end of each chapter include alternate-item format questions and help prepare you for class tests and the NCLEX exam. Critical Thinking Activities at the end of chapters include clinical situations and relevant questions, allowing you to hone your critical thinking skills.

UNIQUE! Best Practices are highlighted to show the latest evidence-based research related to interventions. Online resources listed at the end of each chapter promote comprehensive patient care based on current national standards and evidence-based practices. **UNIQUE!** Icons in page margins point to related animations, video clips, additional content, and related resources on the Evolve site.

Test Bank for Introductory Economics and Introductory Macroeconomics and Introductory Microeconomics is an instructor's aid in developing examinations for students to test their comprehension, recall, and ability to analyze and interpret the basic concepts discussed in "Introductory Economics," "Introductory Macroeconomics," and "Introductory Microeconomics." With more than 2,000 five-response, multiple-choice questions, the "Test Bank" reflects the structures of the texts. The questions cover macroeconomic problems, supply and demand, the problem of unemployment, inflation, and measuring economic activity. Other questions cover aggregate demand, aggregate supply and the economy, fiscal problems, money and banking, as well as money, credit and the economy. Some questions deal with monetarist theory, international trade, the foreign exchange market, international economics. Some interesting response choices concern the problems of the dollar, goals, trade-offs, scarcity and choice, specialization, the micro side of demand and supply. Other questions deal with markets at work, consumer choice, production and costs, producer choice (monopoly), producers in competitive markets, capital, and natural resource market. Professors and lecturers of economics and business courses will find the "Test Bank" very useful. Students of economics, whether they are

WORLD CIVILIZATIONS offers students a comprehensive and balanced overview of the world's major civilizations, spanning from the ancient world to modern times. With more than half of the text devoted to non-Western civilizations, this Third Edition provides increased attention to modern-day Islam, pre-colonial Africa, the role of women throughout history, and the global effects of World War II on the various civilizations. Throughout, Philip Adler describes history as the story of how individuals have tried (with varying degrees of success) to meet their physical, emotional, and intellectual needs and desires. Coverage of wars and military affairs is secondary to coverage of the social and economic topics that form the basis of this text. Individual chapters average between 10-15 pages each, making the

information manageable for students and making the text well-suited to the lecture format. **WORLD CIVILIZATIONS** contains many pedagogical features--including hundreds of maps and documents, overviews, self-tests, a comprehensive glossary, and an updated bibliography of materials commonly available in most university libraries--that make it easy for students to understand and remember key concepts. Available in the following split options: **WORLD CIVILIZATIONS, Complete, Third Edition**, ISBN: 053459922; **WORLD CIVILIZATIONS, Volume I, to 1600 (Chapters 1-2)**, ISBN: 0534601472; **WORLD CIVILIZATIONS, Volume II, Since 1500 (Chapters 26-58)**, ISBN: 0534599230.

Written to support and enhance assessment alongside the pupil texts, these resources offer a range of material for the OCR specification. They provide test questions for each chapter together with detailed mark schemes to make assessment easy. Two versions of each question are provided, one allows pupils to write their answers in the spaces provided and the other requires pupils to have separate writing paper. Questions can be grouped according to needs. Master grids are provided to cut and paste tests together in a consistent format to use the resource in any order. Chapter tests can be grouped to form a module test after chapters. End-of-chapter examinations can also be produced in this way. A free non-calculator supplement organised by unit/chapter is also included in this resource.

Mateer and Coppock's approach teaches economic decision-making with applications that students will remember.
