This is the first volume (covering roughly 1809-1856) of Janet Browne's amazing biography of Charles Darwin (1809-1882). I earlier reviewed the second volume, "Charles Darwin: Power of Place," on Amazon several years ago and found it superlative--in fact, it was one of the books that sparked my interest in Darwin and Victorian science.

Charles Darwin: Voyaging - Princeton University Press
Perhaps more than any of the many accounts of Charles Darwin that I have read over the years, Janet Brown's two volume biography goes the furthest at putting flesh to bone. Brown organizes her biography behind the two central events of Darwins life: his five-year voyage on the HMS Beagle(Volume I: Voyaging), and the publication of On the Origin of Species in 1859(Volume II: The Power of Place).
