~~•The civil war dimension of the majority of contemporary armed conflicts. In civil wars, civilians are often, literally, what the war is about: for example, what the ethnic composition of the state is to be, and who is to govern. They are directly affected by the course and outcome of the war. •The developments in communications.~~

Starting in the 1980s, it was often claimed that 90 percent of the victims of modern wars were civilians. These claims, though widely believed, are not supported by detailed examination of the evidence, particularly that relating to wars (such as those in former Yugoslavia and in Afghanistan) that are central to the claims.

This book explores the issue of civilian devastation in modern warfare, focusing on the complex processes that effectively establish civilians' identity in times of war. Underpinning the physicality of war's tumult are structural forces that create landscapes of civilian vulnerability. Such forces operate in four sectors of modern warfare: nationalistic ideology, state-sponsored militaries, global media, and international institutions.
