Gypsum Byproduct Silo Cleaning. This customer experienced a significant issue with product build up around the walls of their gypsum silo. The build up created a 'rat hole' down the center that allowed for some product flow, but it was very restrictive. In addition to the byproduct flow restriction, the silo's storage space was reduced by 75%, causing significant issues with production.

Cleaning is part 2 (after The Sky Used to be Blue) of a Woolverse story about Karma. Karma is one of the first residents of the silo, and in Cleaning we see how the punishment of "cleaning" develops. I was totally immersed in the story, and it is so, so sad. Especially for a group of young women (teens) who remember what it was like "outside".

Environmental and property concerns have delayed clean up and removal of debris. The silo stood on the land on Highway 14 for much of the business's more than five decades. The road to financial recovery on this farm property may be long, but there's no quit in this family business. "I mean, there's light at the end of the tunnel," John Sorg says.

All residents of the Silo have been taught that the outside world is toxic and deadly, and anyone who expresses any desire to go outside is sent to clean the external sensors. Those who are sent outdoors this way inevitably clean the sensors as instructed, but they also inevitably die a few minutes later.
