The Everyday Mathematics (EM) program was developed by the University of Chicago School Mathematics Project (UCSMP) and is now used in more than 185,000 classrooms by almost three million students. Its research-based

learning delivers the kinds of results that all school districts aspire to. Yet despite that tremendous success, EMOften leaves parents perplexed. Learning is accomplished not through rote memorization, but by actually engaging in real-life math tasks. The curriculum isn ' t linear, but rather spirals back and forth,
