Facebook for Developers

Click on the ID of your Page, displayed directly beneath the name of your Page, to move the ID to the query box. Step 2. Post as a Page. Under the User or Page drop down menu, select the Page access token for your Page. Next, set the method to POST with a request to the `/{page-id}/feed` endpoint, then set the Params key to message and the value to your post text.

Select Email to Developer.

This option lets you email the instructions to your developer, along with a personal message that you can write to them. Note: Your developer needs developer access to your app. You can give someone developer access to your app in the App Dashboard, which is available in the tools menu of Ads Manager.
