## ~~Business Plan Entrepreneurship 3: Feasibility Analysis for New Businesses~~ Feasibility Study On Setting Up

A feasibility study is a study, which is performed by an organization in order to evaluate whether a specific action makes sense from an economic or operational standpoint. The objective of the study is to test the feasibility of a specific action and to determine and define any issues that would argue against this action.

A feasibility review ensures a proposed study has an improved chance of being successfully completed. It considers the tasks and the activities outlined in a clinical research protocol, which describes the patient population, recruitment, trial timeline, study procedures and involvement of human subjects. The aim of a feasibility review is to confirm that the Trust can deliver the study prior to research governance commencing, and should be considered the first step in setting up your project.
