The only thing this shares with the TV series of the same name is the concept of everyone in the world simultaneously blacking out for two minutes, during which they have a "flashforward" of their future. In the TV series that is 6 months hence; in the book it is more than 20 years hence, so the implications are very different.

Summary: Dubbed ABC's companion series to Lost, FlashForward is based on Robert J. Sawyer's sci-fi novel of the same name. The plot centers around an eerie, chaotic vision of the future after a mysterious event makes everyone on Earth lose consciousness. Later, as people start waking up, the world starts changing because people know their future.

Robert J. Sawyer's award-winning science fiction has garnered both popular and critical acclaim. The New York Times Book Review called Frameshift "filled to bursting with ideas, characters and incidents." His novels are fixtures on the Hugo and Nebula ballots. Sawyer now brings us Flashforward, the story of a world-shattering discovery. In pursuit of an elusive nuclear particle, an experiment goes incredibly awry, and, for a few moments, the consciousness of the entire human race is thrown ahead by about twenty years. As the implications truly hit home, the pressure to repeat the experiment builds. Everyone wants a glimpse of their future, a chance to flashforward and see their successes ... or learn how to avoid their failures. Winner of the Aurora Award and the basis for the hit ABC television series. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

An experiment into an elusive nuclear particle veers off course and for a few moments, the consciousness of the entire human race is thrown forward about twenty years, giving everyone a glimpse of their own future.

Suddenly everyone in the world loses consciousness for two minutes. Planes fall from the sky, there are millions of car crashes, millions die. And when everyone comes round they have had a glimpse of their life in the future. When it awakes the world must live with the knowledge of what is to come. Some saw themselves in new relationships, some saw exciting new technologies, some saw the stuff of nightmares. Some, young and old alike, saw nothing at all ... A desperate search to find out what has happened begins. Does the mosaic of visions offer a clue? What did you see? Now the basis for the Channel 5 hit series FLASHFORWARD

When the border between the Multiverse and the Dark Multiverse starts to buckle, Wally West must answer the call and journey to these worlds and purge them of this darkness, but the greater darkness is that from within. His name is Wally West--and he was the Fastest Man Alive. That is, until the Multiverse was rewritten without him or his family in it. Wally returned and tried to make it work, but the damage was done. Spinning out of the events of Heroes in Crisis, follow the man who called himself Flash on an adventure to find redemption in a cosmos that has fought so hard to destroy him. Collects Flash Forward #1-6.

One of Apple's Most Anticipated Books of Winter 2021 A quest to explore some of the most spectacular ancient cities in human history—and figure out why people abandoned them. In Four Lost Cities, acclaimed science journalist Annalee Newitz takes readers on an entertaining and mind-bending adventure into the deep history of urban life. Investigating across the centuries and around the world, Newitz explores the rise and fall of four ancient cities, each the center of a sophisticated civilization: the Neolithic site of Çatalhöyük in Central Turkey, the Roman vacation town of Pompeii on Italy's southern coast, the medieval megacity of Angkor in Cambodia, and the indigenous metropolis Cahokia, which stood

beside the Mississippi River where East St. Louis is today. Newitz travels to all four sites and investigates the cutting-edge research in archaeology, revealing the mix of environmental changes and political turmoil that doomed these ancient settlements. Tracing the early development of urban planning, Newitz also introduces us to the often anonymous workers—slaves, women, immigrants, and manual laborers—who built these cities and created monuments that lasted millennia. *Four Lost Cities* is a journey into the forgotten past, but, foreseeing a future in which the majority of people on Earth will be living in cities, it may also reveal something of our own fate.

When the border between the Multiverse and the Dark Multiverse starts to buckle, who do you turn to? The answer: Wally West. Once the Fastest Man Alive, he's now a man with nothing left to live for. Will Tempus Fuginaut's chosen champion rise to the occasion and fight back the demons of the darkness, or will Wally's own demons win the day?

The finale of *Flash Forward* is here, and Wally West must make the toughest choice of his life: save the day, or save his family. With the crack in the Dark Multiversal barrier reaching critical mass, Wally's mettle will be tested in ways the young hero has never seen before...and this surprise ending will leave you speechless!

His name is Wally West—and he was the Fastest Man Alive. That is, until the Multiverse was rewritten without him or his family in it. Wally returned and tried to make it work, but the damage was done. Spinning out of the events of *HEROES IN CRISIS*, follow the man who called himself Flash on an adventure to find redemption in a cosmos that has fought so hard to destroy him.
