Little Clara enjoys painting cute messages on rocks and leaving them for passersby to read. One day a turtle feeling down and out passes by Clara's house. Upon seeing the messages on the rocks he is rejuvenated and rushes home to share the messages with his friends.

A group of talented authors come together to share stories of murder, mayhem, time travel, beloved pets, and true historical events in their debut anthology. You will weep. You will smile. You will realize the power of a writer when everyone gets to tell their story.

-- Six alternate histories where the course of human events went very differently. -- Lead author Kenneth Hite is also the author of the popular new Suppressed Transmission.

An illustrated version of the song about someone who decides to wrap up as a package and get mailed to visit a friend.

"Statistical Modeling: A Fresh Approach introduces and illuminates the statistical reasoning used in modern research throughout the natural and social sciences, medicine, government, and commerce. It emphasizes the use of models to untangle and quantify variation in observed data. By a deft and concise use of computing coupled with an innovative geometrical presentation of the relationship among variables. A Fresh Approach reveals the logic of statistical inference and empowers the reader to use and understand techniques such as analysis of covariance that appear widely in published research but are hardly ever found in introductory texts."-- book cover
