Sara Paretsky's genius made Chicago private eye V.I. Warshawski a household name. Now the New York Times bestselling author explores an unseen corner of the city she loves. In Ghost Country she has written a parable for the millennium, a powerful, haunting novel of magic and miracles, of four troubled people who meet beneath Chicago's shadowy streets--and of the woman whose mysterious appearance changes all of their lives forever. They come from different worlds and meet at a time of crisis for all of them. Luisa, a drunken diva fallen on hard times, discovers on Chicago's streets a drama greater than any she has experienced onstage. Madeleine, a homeless woman, sees the Virgin Mary's blood seeping through a concrete wall beneath a luxury hotel. Mara, a rebellious adolescent cast out by her wealthy grandfather, becomes the catalyst for a war between the haves and have-nots as she searches among society's castoffs for the mother she never knew. As the three women fight for their right to live and worship beneath the hotel, they find an ally in Hector Tammuz, an idealistic young psychiatrist risking his career to treat the homeless regardless of the cost. Tensions in the city are escalating when a mysterious woman appears during a violent storm. Erotic to some, repellent to others, she never speaks; the street people call her Starr. And as she slowly transforms their lives, miracles begin to happen in a city completely unprepared for the outcome. In this extraordinary novel, Sara Paretsky gives voice to the dispossessed, to men and women struggling to bury the ghosts of the past, fighting for their lives in a world hungry for miracles, terrified of change. A magical, unforgettable story of myth and madness, hope and revelation, Ghost Country is Sara Paretsky's most eloquent and ambitious work yet.

Featuring everything from sports stadiums to shopping malls, hundreds of new cities in China stand empty, with hundreds more set to be built by 2030. Between now and then, the country's urban population will leap to over one billion, as the central government kicks its urbanization initiative into overdrive. In the process, traditional social structures are being torn apart, and a rootless, semi-displaced, consumption orientated culture rapidly taking their place. Ghost Cities of China is an enthralling dialogue driven, on-location search for an understanding of China's new cities and the reasons why many currently stand empty.

"An enthralling story . . . A work of history that reads like a novel." — Christian Science Monitor "As Hochschild's brilliant book demonstrates, the great Congo scandal prefigured our own times . . . This book must be read and reread." — Los Angeles Times Book Review In the late nineteenth century, as the European powers were carving up Africa, King Leopold II of Belgium carried out a brutal plundering of the territory surrounding the Congo River. Ultimately slashing the area's population by ten million, he still managed to shrewdly cultivate his reputation as a great humanitarian. A tale far richer than any novelist could invent, King Leopold's Ghost is the horrifying account of a megalomaniac of monstrous proportions. It is also the deeply moving portrait of those who defied Leopold: African rebel leaders who fought against hopeless odds and a brave handful of missionaries, travelers, and young idealists who went to Africa for work or adventure but unexpectedly found themselves witnesses to a holocaust and participants in the twentieth century's first great human rights movement.
