| History – Haliwa Saponi Indian Tribe |
| A Brief History of the Haliwa-Saponi Indian Tribe. The Haliwa-Saponi Indian people number over 4,000 enrolled members and are descendants of the Saponi, Nansemond, Tuscarora, and some other regional tribes. During the English colonial era, these tribes maintained autonomou villages in what is now northeastern North Carolina and southern Virginia. The Saponi Indians, an eastern Sioux-speaking tribe, were first encountered by colonists on the Staunton (or Roanoke) River in Virginia around 1670. |

| |
|---|
| A Brief Haliwa-Saponi Tribal History |
| The Haliwa Indians were recognized as a tribe by the North Carolina legislature in 1965. The tribal name is a combination of Halifax and Warren Counties, where the majority of the Haliwa live. One tradition relates that the present Indian communities in this area were founded by wounded survivors of the Tuscarora War and other colonial conflicts who were unable to rejoin their original tribal groups. |

| Haliwa-Saponi — American Indian Made in North Carolina |
| The name Haliwa is derived from the two counties: Halifax and Warren, which are the ancestral homelands of the Haliwa people dating from the 1730s. They re-organized and adopted their current form of government in 1953 and were recognized in 1965 by the state of North Carolina. In 1979 the tribe added Saponi to their name to reflect their descent from the historical Saponi peoples, part of the large Siouan languages family, who were formerly located in the Piedmont of present-day Virginia and th |

| The Saponi or Sappony are a Native American tribe historically based in the Piedmont of North Carolina and Virginia. They spoke the Siouan Tutelo-Saponi language, which was related to the languages of the Tutelo, Occaneechi, Monacan, Manahoac and other eastern Siouan peoples. Since the mid-20th century, certain groups in the Southeast have organized to assert their American Indian cultural identity; some claim descent from the historic Sappony. Among them are the Haliwa-Saponi, and the Occaneech |

| The Saponi Indians originally lived in the Virginia Piedmont. English pioneer John Smith encountered the tribe in 1607. Later on, German explorer John Lederer encountered the tribe in 1670 living on the banks of the Staunton River. At the time the Saponi and Tutelo were living close together in a village southwest of present-day Lynchburg. |

| Long before the indigenous people of southeastern North America first encountered Europeans and Africans, they established communities with clear social and political hierarchies and rich cultural traditions. Award-winning historian Gregory D. Smithers brings this world to life in Native Southerners, a sweeping narrative of American Indian history in the Southeast from the time before European colonialism to the Trail of Tears and beyond. In the Native South, as in much of North America, storytelling is key to an understanding of origins and tradition—and the stories of the indigenous people of the Southeast are central to Native Southerners. Spanning territory reaching from modern-day Louisiana and Arkansas to the Atlantic coast, and from present-day Tennessee and Kentucky through Florida, this book gives voice to the lived history of such well-known polities as the Cherokees, Creeks, Seminoles, Chickasaws, and Choctaws, as well as smaller Native communities like the Nottoway, Occaneechi, Haliwa-Saponi, Catawba, Biloxi-Chitimacha, Natchez, Caddo, and many others. From the oral and cultural traditions of these Native peoples, as well as the written archives of European colonists and their Native counterparts, Smithers constructs a vibrant history of the societies, cultures, and peoples that made and remade the Native South in the centuries before the American Civil War. What emerges is a complex picture of how Native Southerners understood themselves and their world—a portrayal linking community and politics, warfare and kinship, migration, adaptation, and ecological stewardship—and how this worldview shaped and was shaped by their experience both before and after the arrival of Europeans. As nuanced in detail as it is sweeping in scope, the narrative Smithers constructs is a testament to the storytelling and the living history that have informed the identities of Native Southerners to our day. |

| More than 50,000 Indians lived in the area now known as North Carolina at the time of Christopher Columbuss arrival in the New World. The Formation North Carolina Coastal and Eastern Counties examines the history of this Native American Indian population. It also focuses upon the formation of North Carolina from colonial times; tracing the origins of its earliest settlers, including Native Americans. By the middle of the nineteenth century, the number of American Indians on official census rolls had been reduced drastically, possibly due to the threat of removal of people identified as Indians. Still, the Indian population thrived in spite of governmental attempts to remove them. Author Milton E. Campbell offers extensive documentation of the survival of Native American Indians and their culture into the twenty-first century in North Carolina. The first three chapters of the book lay the foundation for chapters discussing individual Native American Tribes within North Carolina. Also included is an overview of the surnames that were identified as Indian names in the 1900 Census of Robeson County. The conclusion includes three short personal interviews on Native American ancestry in North Carolina Coastal and Eastern Counties. Explore the intriguing and fascinating history of eastern North Carolina with this detailed, engaging study. |

| This engaging collection surveys and clarifies the complex issue of federal and state recognition for Native American tribal nations in the United States. Den Ouden and O'Brien gather focused and teachable essays on key topics, debates, and case studies. Written by leading scholars in the field, including historians, anthropologists, legal scholars, and political scientists, the essays cover the history of recognition, focus on recent legal and cultural processes, and examine contemporary recognition struggles nationwide. Contributors are Joanne Barker (Lenape), Kathleen A. Brown-Perez (Brothertown), Rosemary Cambra (Muwekma Ohlone), Amy E. Den Ouden, Timothy Q. Evans (Haliwa-Saponi), Les W. Field, Angela A. Gonzales (Hopi), Rae Gould (Nipmuc), J. Kehaulani Kauanui (Kanaka Maoli), K. Alexa Koenig, Alan Leventhal, Malinda Maynor Lowery (Lumbee), Jean M. O'Brien (White Earth Ojibwe), John Robinson, Jonathan Stein, Ruth Garby Torres (Schaghticoke), and David E. Wilkins (Lumbee). |

| Art for a New Understanding, an exhibition from Crystal Bridges Museum of American Art that opened in October 2018, seeks to radically expand and reposition the narrative of American art since 1950 by charting a history of the development of contemporary Indigenous art from the United States and Canada, beginning when artists moved from more regionally-based conversations and practices to national and international contemporary art contexts. This fully illustrated volume includes essays by art historians and historians and reflections by the artists included in the collection. Also included are key contemporary writings—from the 1950s onward—by artists, scholars, and critics, investigating the themes of transculturalism and pan-Indian identity, traditional practices conducted in radically new ways, displacement, forced migration, shadow histories, the role of personal mythologies as a means to reimagine the future, and much more. As both a survey of the development of Indigenous art from the 1950s to the present and a consideration of Native artists within contemporary art more broadly, Art for a New Understanding expands the definition of American art and sets the tone for future considerations of the subject. It is an essential publication for any institution or individual with an interest in contemporary Native American art, and an invaluable resouce in ongoing scholarly considerations of the American contemporary art landscape at large. |

| Transcending familiar categories of "black" and "white," this volume of The New Encyclopedia of Southern Culture complicates and enriches our understanding of "southernness" by identifying the array of cultures that combined to shape the South. This exploration of southern ethnicities examines the ways people perform and maintain cultural identities through folklore, religious faith, dress, music, speech, cooking, and transgenerational tradition. Accessibly written and informed by the most recent research that recovers the ethnic diversity of the early South and documents the more recent arrival of new cultural groups, this volume greatly expands upon the modest Ethnic Life section of the original Encyclopedia. Contributors describe 88 ethnic groups that have lived in the South from the Mississippian Period (1000-1600) to the present. They include 34 American Indian groups, as well as the many communities with European, African, and Asian cultural ties that came to the region after 1600. Southerners from all backgrounds are likely to find themselves represented here. |
