You can do a manual import of a DXF into Biesseworks.
Everything will come in as geometries only. You will then have to
assign all the tooling. Either set up a new Biesseworks program and
then do a "manual import", or just file-open in Biesseworks. Just
make sure the file type is "DXF" format.

Import DXF shape to Biesse Skill 1224 G FT from cabinet software/SketchUp Our cabinet shop needs to cut a design out for a privacy screen using a DXF that I have produced. Only problem at this point is that when it is being imported into Biesse, the DXF is being centred on the origin point instead of coming in at the bottom left corner as it is in my drawings.
