Managerial Accounting – Chapter 2 "Job Order Costing" Test ...

Basic Job Costing. Job costing (also called job order costing) is best suited to those situations where goods and services are produced upon receipt of a customer order, according to customer specifications, or in separate batches. For example, a ship builder would likely accumulate costs for each ship produced. An aircraft manufacturer would find this method logical. Construction companies and home builders would naturally gravitate to a job costing approach. Each job is somewhat unique.
