As we move through the 21st

century, the importance of science fiction to the study of English Literature is becoming increasingly apparent. The Science Fiction Handbook provides a comprehensive guide to the genre and how to study it

The wish to affiliate with a  
specific cultural, social,  
or ethnical group is as  
important today as it was in

past societies, such as that of the ancient Egyptians.

The same significance applies to the self-presentation of an individual within such a group. Although it is inevitable that we perceive

# Online Library Masterworks Wordpress

ancient cultures through the lens of our time, place, and value systems, we can certainly try to look beyond these limitations. Questions of how the ancient Egyptians saw themselves and how individuals tried to

# Online Library Masterworks Wordpress

establish and thus present themselves in society are central pieces of the puzzle of how we interpret this ancient culture. This volume focuses on the topic of identity and self-presentation, tackling the

subject from many different angles: the ways in which social and personal identities are constructed and maintained; the manipulations of culture by individuals to reflect real or aspirational identities;

# Online Library Masterworks Wordpress

and the methods modern scholars use to attempt to say something about ancient persons. Building on the work of Ronald J. Leprohon, to whom this volume is dedicated, contributions in this volume present an

# Online Library Masterworks Wordpress

overview of our current state of understanding of patterns of identity and self-presentation in ancient Egypt. The contributions approach various aspects of identity and self-presentation through studies

of gender, literature,  
material culture, mythology,  
names, and officialdom.

For creative writers and  
artists, comics provide  
unique opportunities for  
expression - but unique

challenges, too. Creating Comics brings together in one volume an authoritative guide to the creative process, with practical drawing exercises throughout and an anthology of comics demonstrating the eclectic

possibilities of the form.

Creating Comic covers: ·
