The hugely popular New York Times " Your Money " columnist and author of the bestselling The Opposite of Spoiled offers a deeply reported and emotionally honest approach to the biggest financial decision families will ever make: what to pay for college. Sending a teenager to a flagship state university for four years of on-campus living costs more than \$100,000 in many parts of the United States. Meanwhile, many families of freshmen attending selective private colleges will spend triple—over \$300,000. With the same passion, smarts, and humor that infuse his personal finance column, Ron Lieber offers a much-needed roadmap to help families navigate this difficult and often confusing journey. Lieber begins by explaining who pays what and why and how the financial aid system got so complicated. He also pulls the curtain back on merit aid, an entirely new form of discounting that most colleges now use to compete with peers. While price is essential, value is paramount. So what is worth paying extra for, and how do you know when it exists in abundance at any particular school? Is a small college better than a big one? Who actually does the teaching? Given that every college claims to have reinvented its career center, who should we actually believe? He asks the tough questions of college presidents and financial aid gatekeepers that parents don ' t know (or are afraid) to ask and summarizes the research about what matters and what doesn ' t. Finally, Lieber calmly walks families through the process of setting financial goals, explaining the system to their children and figuring out the right ways to save, borrow, and bargain for a better deal. The Price You Pay for College gives parents the clarity they need to make informed choices and helps restore the joy and wonder the college experience is supposed to represent.

The Food, Conservation, and Energy Act of 2008 directed the U.S. Dept. of Agr. to conduct a 1-year study to assess the extent of areas with limited access to affordable and nutritious food, identify characteristics and causes of such areas, consider how limited access affects local populations, and outline recommend. to address the problem. This report presents the findings of the study, which include results from two conferences of national and internat. authorities on food deserts and a set of research studies. It also includes reviews of existing literature, a national-level assessment of access to large grocery stores and supermarkets, analysis of the economic and public health effects of limited access, and a discussion of existing policy interventions. Illus.

The rapid growth of kinship foster care--full-time parenting of children by relatives or other adults who have a kinship bond with a child--has caught many child welfare agencies off guard. This monograph presents information needed by professionals, agencies, institutions, communities, and organizations to develop and provide services to kinship caregivers, kinship families, children, and parents. The monograph contains discussions of common clinical issues, suggests intervention strategies, examines kinship care's legal implications, and offers policy and program recommendations. Chapter 1 compares relative or kinship care to traditional family foster care, and outlines the characteristics of kinship care that necessitate changes in outlook and practice. Chapter 2 analyzes the clinical issues that must be considered in serving children, parents, and kinship caregivers. Chapters 3 and 4 provide guidance on child welfare practice with kinship families. Chapter 5 considers the effect of culturally based child-rearing practices, gender roles, and hierarchy of authority on child welfare practice with kinship families, as well as the impact of parental incarceration, substance abuse, and HIV/AIDS. Chapter 6 looks at the legal rights, responsibilities, and status of kinship families, caregivers, parents, and children. Chapter 7 discusses federal and state issues for program and policy development; this chapter also examines the philosophy and values underlying provision of financial support to kinship families, the emerging federal role, state policy directions, and permanency planning. Contains 40 references. (KB)
