Clarke brings St Thomas's work right up to date by incorporating the insights of personalist philosophers into St Thomas's metaphysics. Thus, Clarke demonstrates that the human person is not just a substance but a relational substance. The relational aspect of being is not accidental to being but is a primordial constituent thereof.*

Person and Being (Aquinas Lecture): Clarke, W. Norris ...

A person is a being that has certain capacities or attributes such as reason, morality, consciousness or self-consciousness, and being a part of a culturally established form of social relations such as kinship, ownership of property, or legal responsibility. The defining features of personhood and consequently what makes a person count as a person differ widely among cultures and contexts. In addition to the question of personhood, of what makes a being count as a person to begin with, there ar

The contemporary way of formulating the distinction begins with John Locke's Essay Concerning Human Understanding, where he defines the 'human being' as a biological concept and the 'person' as a psychological (and forensic) concept. Locke suggests that coincidence under the one in no way guarantees coincidence under the other.

Being a Human Being, Being a Person - PhilEvents

A person is a human being as long as his body and soul are connected or united. A man on death bed, having lost all his intellectual and emotional capacities is still a human being. But a hard core criminal, who does not have any feelings towards fellow human beings and is ready to kill other human beings at the drop of a hat, is certainly not behaving as a human being.
