Dissonance in the Modern Italian Novel is a study of the ways in which gender shapes the principal characters and narratives of seven important Italian novels of the nineteenth and twentieth centuries, from Alessandro Manzoni's *I promessi sposi* (1827) to Elsa Morante's *Aracoeli* (1982). Silvia Valisa's innovative approach focuses on the tensions between the characters and the gender ideologies that surround them, and the ways in which this dissonance exposes the ideological and epistemological structures of the modern novel. A provocative account of the intersection between gender, narrative, and epistemology that draws on the work of Georg Lukács, Barbara Spackman, and Teresa de Lauretis, this volume offers an intriguing new approach to investigating the nature of fiction.

Combines theme and genre analysis in a study of the Italian author, from her first literary writings in the 1930s to her novels in the 1990s.

The phrase 'cinematic fiction' has now been generally accepted into critical discourse, but is usually applied to post-war novels. This book asks a simple question: given their fascination with the new medium of film, did American novelists attempt to apply cinematic methods in their own writings? From its very beginnings the cinema has played a special role in defining American culture. Covering the period from the 1910s up to the Second World War, *Cinematic Fictions* offers new insights into classics like *The Great Gatsby* and *The Grapes of Wrath* discussing major writers' critical writings on film and active participation in film-making. *Cinematic Fictions* is also careful not to portray 'cinema' as a single or stable entity. Some novelists drew on silent film; others looked to the Russian theorists for inspiration; and

yet others turned to continental film-makers rather than to Hollywood. Film itself was constantly evolving during the first decades of the twentieth century and the writers discussed here engaged in a kind of dialogue with the new medium, selectively pursuing strategies of montage, limited point of view and scenic composition towards their different ends. Contrasting a diverse range of cinematic and literary movements, this will be compulsory reading for scholars of American literature and film.

In the second edition of *The Idea of Nature in Disney Animation*, David Whitley updates his 2008 book to reflect recent developments in Disney and Disney-Pixar animation such as the apocalyptic tale of earth's failed ecosystem, *WALL-E*. As Whitley has shown, and Disney's newest films continue to demonstrate, the messages animated films convey about the natural world are of crucial importance to their child viewers. Beginning with *Snow White*, Whitley examines a wide range of Disney's feature animations, in which images of wild nature are central to the narrative. He challenges the notion that the sentimentality of the Disney aesthetic, an oft-criticized aspect of such films as *Bambi*, *The Jungle Book*, *Pocahontas*, *Beauty and the Beast*, and *Finding Nemo*, necessarily prevents audiences from developing a critical awareness of contested environmental issues. On the contrary, even as the films communicate the central ideologies of the times in which they were produced, they also express the ambiguities and tensions that underlie these dominant values. In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated, Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art

plays in shaping the emotions and ideas that are central to contemporary experience.

In this remarkable book, Carl Verheyen teaches his philosophy and techniques for improvising. Rather than hashing out scales, Carl teaches how to play lines with strong melodic content. By approaching melodies through intervals and chord qualities, infinite lines can be generated. Carl stresses the importance of collecting lines that can be used in improvised settings. These lines and examples will provide outstanding material for any guitarist yearning for melodic ideas and inspiration. Presented in standard notation and tab.

(Guitar Recorded Versions). 16 songs from the 2005 greatest hits release by this popular heavy metal band which were recorded between 1984 & 2000, presented in authentic guitar transcriptions with notes and tablature. Includes: Angry Again * Dread & the Fugitive Mind * Hangar 18 * Holy Wars...The Punishment Due * In My Darkest Hour * Kill the King * Peace Sells * Prince of Darkness * She-Wolf * Skin O' My Teeth * Sweating Bullets * Symphony of Destruction * A Tout Le Monde (A Tout Le Monde (Set Me Free)) * Train of Consequences * Trust * Wake up Dead.
