Cassia has always trusted the Society to make the right choices for her: what to read, what to watch, what to believe. So when Xander's face appears on-screen at her Matching ceremony, Cassia knows with complete certainty that he is her ideal mate . . . until she sees Ky Markham's face flash for an instant before the screen fades to black. The Society tells her it's a glitch, a rare malfunction, and that she should focus on the happy life she's destined to lead with Xander. But Cassia can't stop thinking about Ky, and as they slowly fall in love, Cassia begins to doubt the Society's infallibility and is faced with an impossible choice: between Xander and Ky, between the only life she's known and a path that no one else has dared to follow. Look for **CROSSED**, the sequel to **MATCHED**, in Fall 2011! Watch a Video

Learn to start open, productive talks about money with your parents as they age As your parents age, you may find that you want or need to broach the often-difficult subject of finances. In Mom and Dad, We Need to Talk: How to Have Essential Conversations with Your Parents About Their Finances, you'll learn the best ways to approach this issue, along with a wealth of financial and legal information that will help you help your parents into and through their golden years. Sometimes parents are reluctant to address money matters with their adult children, and topics such as long-term care, retirement savings (or lack thereof), and end-of-life planning can be particularly touchy. In this book, you'll hear from others in your position who have successfully had "the talk" with their parents, and you'll read about a variety of conversation strategies that can make talking finances more comfortable and more productive. Learn conversation starters and strategies to open the lines of communication about your parents' finances Discover the essential financial and legal information you should gather from your parents to be prepared for the future Gain insight from others' stories of successfully talking money with aging parents Gather the courage, hope, and motivation you need to broach difficult subjects such as care facilities and end-of-life plans For children of Baby Boomers and others looking to assist aging parents with their finances, Mom and Dad, We Need to Talk is a welcome and comforting read. Although talking money with your parents can be hard, you aren't alone, and this book will guide you through the process of having fruitful financial conversations that lead to meaningful action.

NEW YORK TIMES BESTSELLER • From Pulitzer Prize-winning author Edmund Morris comes a revelatory new biography of Thomas Alva Edison, the most prolific genius in American history. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY** Time • Publishers Weekly • Kirkus Reviews Although Thomas Alva Edison was the most famous American of his time, and remains an international name today, he is mostly remembered only for the gift of universal electric light. His invention of the first practical incandescent lamp 140 years ago so dazzled the world—already reeling from his invention of the phonograph and dozens of other revolutionary devices—that it cast a shadow over his later achievements. In all, this near-deaf genius ("I haven't heard a bird sing since I was twelve years old") patented 1,093 inventions, not including others, such as the X-ray fluoroscope, that he left unlicensed for the benefit of medicine. One of the achievements of this staggering new biography, the first major life of Edison in more than twenty years, is that it portrays the unknown Edison—the philosopher, the futurist, the chemist, the botanist, the wartime defense adviser, the founder of nearly 250 companies—as fully as it deconstructs the Edison of mythological memory. Edmund Morris, winner of the Pulitzer Prize and the National Book Award, brings to the task all the interpretive acuity and literary elegance that distinguished his previous biographies of Theodore Roosevelt, Ronald Reagan, and Ludwig van Beethoven. A trained musician, Morris is especially well equipped to recount Edison's fifty-year obsession with recording technology and his pioneering advances in the synchronization of movies and sound. Morris sweeps aside conspiratorial theories positing an enmity between Edison and Nikola Tesla and presents proof of their mutually admiring, if wary, relationship. Enlightened by seven years of research among the five million pages of original documents preserved in Edison's huge laboratory at West Orange, New Jersey, and privileged access to family papers still held in trust, Morris is also able to bring his subject to life on the page—the adored yet autocratic and often neglectful husband of two wives and father of six children. If the great man who emerges from it is less a sentimental hero than an overwhelming force of nature, driven onward by compulsive creativity, then Edison is at last getting his biographical due.

Our culture trains us to prepare for almost everything but death. Fear and denial are common human responses to the subject. What awaits us beyond this life? It is a journey into the unknown, or a glorious, spiritual pilgrimage to eagerly anticipate? In *Death and the Life After*, Billy Graham answers these questions and more, addressing such complex modern day issues as euthanasia, suicide, and living wills. Dr. Graham objectively and compassionately: Shares biblical secrets to finding peace and vicotry in the midst of suffering Presents real life testimonies of courageous men and women facing death Answers questions about the process of dying Teaches practical, loving ways to comfort those facing death Gives practical advice on preparing a will and planning a funeral Find peace, assurance, triumph, and even humor in a subject which is important to everyone.

This book explores a century of business development of The South African Life Assurance Company, from a specific local focus to a national conglomerate expanding into global insurance markets. Established as a strategic vehicle to address Afrikaner economic marginalization and abject poverty at the beginning of the twentieth century, Sanlam has displayed both path dependence and a dynamic adaptability to complex changing contexts to become a global player. The strategic convergence of economic empowerment through the mobilization of savings into insurance products, as well as Afrikaner nationalism, assisted this growth. Sanlam has played an a-typical role in the economic empowerment of an ethnic entity through extensive investments into the industrializing South African economy. This strategic diversion created operational limitations that were only resolved early in the twenty-first century. As globalization, financial deregulation, and weakened Afrikaner political and social hegemony manifested, strategic change management relied on the path dependence of empowerment strategies to address new markets with similar needs to those of the early stakeholder market of 1918. The former mutual life office demutualized operations to become a diversified financial services group of companies operating across almost the entire African continent, as well as in India, Malaysia, and the UK. This volume presents a business history of strategic management of an insurance enterprise, and its transformation from a defined cultural context into an international empowerment strategy through innovation on all levels of business operation and organization. This book is an Open Access publication, available online under a CC BY-NC-ND 4.0 license.

Witness protection supposedly offers a fresh start, but for Ana Easterday, it's a personal apocalypse. Stranded in Indiana, she's lost her future as well as her past. When a hitman offers her a way home, she has to decide: stay or go? Do Not Go On is about secrets, second chances, and stories that can save your skin and soul.

The story of a young woman born and raised in Detroit who migrates to Atlanta, GA and becomes involved in the glitter and glamour of the high-priced lifestyle of exotic dancing, sex, and drugs.

What do you do when you realise you have everything you think you've ever wanted but still feel completely empty? What do you do when it all starts to fall apart? The second volume of Moby's extraordinary life story is a journey into the dark heart of fame and the demons that lurk just beneath the bling and bluster of the celebrity lifestyle. In summer 1999, Moby released the album that defined the millennium, PLAY. Like generation-defining albums before it, PLAY was ubiquitous, and catapulted Moby to superstardom. Suddenly he was hanging out with David Bowie and Lou Reed, Christina Ricci and Madonna, taking ecstasy for breakfast (most days), drinking litres of vodka (every day), and sleeping with super models (infrequently). It was a diet that couldn't last. And then it fell apart. The second volume of Moby's memoir is a classic about the banality of fame. It is shocking, riotously entertaining, extreme, and unforgiving. It is unedifying, but you can never tear your eyes away from the page.

The hauntingly prophetic classic novel set in a not-too-distant future where books are burned by a special task force of firemen. 'Another indispensable classic' The Times "Ray Bradbury's gift for storytelling reshaped our culture and expanded our world" Barack Obama Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy society to preserve and read books. The classic dystopian novel of a post-literate future, Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which, decades on from first publication, still has the power to dazzle and shock.
