Book 4 includes the use of triad inversions in sight-reading exercises, clapping exercises notated as melodies, key signatures of up to four sharps and flats, and 6/8 meter.

Improve Your Theory! Grades 1--5 are a fantastic addition to the best-selling Improve Your . . . series by Paul Harris. This theory workbook takes students through every aspect of music theory covered in the grade 5 ABRSM examination. Firmly rooted in Paul Harris's Simultaneous Learning approach, it will transform how music theory is taught and learned, improving every aspect of musicianship along the way. Never before has theory been so fun or seemed so natural!

The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar. Catherine Schmidt-Hones is a music teacher from Champaign, Illinois and she has been a pioneer in open education since 2004. She is currently a doctoral candidate at the University of Illinois in the Open Online Education program with a focus in Curriculum and Instruction.

This book has been considered by academicians and scholars of great significance and value to literature. This forms a part of the knowledge base for future generations. We have represented this book in the same form as it was first published. Hence any marks seen are left intentionally to preserve its true nature.
