The rich person's mind thinks more about providing quality than about earning their own profit. They think about how their products benefit society. This is what makes people believe in what they give and buy those things. Making people buy their product is one of the least things in the rich person's mind.

What is the Mindset of the Rich - Efren Nolasco

"The rich man had received his good things, and had used them selfishly for his benefit alone. Despite frequent injunctions in the O[ld] T[estament] for the rich to share their good things with the poor, this rich man's indifference to Lazarus showed how far his heart was from God and how far his path had strayed from God's ways.

According to the great mathematician Paul Erdős, God maintains perfect mathematical proofs in The Book. This book presents the authors candidates for such "perfect proofs," those which contain brilliant ideas, clever connections, and wonderful observations, bringing new insight and surprising perspectives to problems from number theory, geometry, analysis, combinatorics, and graph theory. As a result, this book will be fun reading for anyone with an interest in mathematics.

A NEW YORK TIMES NOTABLE BOOK • Ghana, eighteenth century: two half sisters are born into different villages, each unaware of the other. One will marry an Englishman and lead a life of comfort in the palatial rooms of the Cape Coast Castle. The other will be captured in a raid on her village, imprisoned in the very same castle, and sold into slavery. One of Oprah's Best Books of the Year and a PEN/Hemingway award winner, *Homegoing* follows the parallel paths of these sisters and their descendants through eight generations: from the Gold Coast to the plantations of Mississippi, from the American Civil War to Jazz Age Harlem. Yaa Gyasi's extraordinary novel illuminates slavery's troubled legacy both for those who were taken and those who stayed—and shows how the memory of captivity has been inscribed on the soul of our nation.

THE STORY: On the eve of her twenty-fifth birthday, Catherine, a troubled young woman, has spent years caring for her brilliant but unstable father, a famous mathematician. Now, following his death, she must deal with her own volatile emotions; the

James Boswell's 'Life of Johnson', An Edition of the Original Manuscript, in Four Volumes; Vol. 4: 1780-1784 This volume is the final in the Yale Boswell Editions' manuscript edition of the Life of Johnson, a four-volume sequence designed to stand as a research supplement to the Hill-Powell version of the Life. The first volume, edited by Marshall Waingrow and covering the years 1709-1765, appeared in 1994, and the second, 1766-1776, edited by Bruce Redford with Elizabeth Goldring, in 1998. The third, 1776-1780, edited by Thomas F. Bonnell was published in 2012. This fourth volume traces Boswell's processes of composition from first draft to final publication. It restores much deleted material and passages lost or overlooked at proof and revision stage. It also corrects a host of errors-from compositorial to misreadings-that have stood in all editions of Boswell's biographical masterwork. Thomas Bonnell's annotation clarifies a range of textual issues, and sheds revealing light on Boswell's processes of selection and deletion.

Comedy, tragedy, and history are masterfully represented in this anthology of Shakespeare's works. Features A Midsummer Night's Dream, Romeo and Juliet, and Richard III. Includes informative footnotes.

First-ever comprehensive introduction to the major new subject of quantum computing and quantum information.
