The artistic process behind the creation of these albums is revealed through exclusive interviews with people who worked alongside her in the studio—her producers, sound engineers, and backing band members—and included is an analysis of her choice to break away from the traditional rules of the recording industry and forge her own path and musical identity. Washington Post national arts reporter Geoff Edgers takes a deep dive into the story behind "Walk This Way," Aerosmith and Run-DMC's legendary, groundbreaking mashup that forever changed music. The early 1980s were an exciting time for music. Hair

metal bands were selling out stadiums, while clubs and house parties in New York City had spawned a new genre of music. At the time, though, hip hop's reach was limited, an art form largely ignored by mainstream radio deejays and the rock-obsessed MTV network. But in 1986, the music world was irrevocably changed when Run-DMC covered Aerosmith's hit "Walk This Way" in the first rock-hip hop collaboration. Others had tried melding styles. This was different, as a pair of iconic arena rockers and the young kings of hip hop shared a studio and started a revolution. The result: Something totally new and instantly popular. Most importantly, "Walk This Way" would be the first rap song to be played on mainstream rock radio. In *Walk This Way*, Geoff Edgers sets the scene for this unlikely union of rockers and MCs, a mashup that both revived Aerosmith and catapulted hip hop into the mainstream. He tracks the paths of the main artists—Steven Tyler, Joe Perry, Joseph "Run" Simmons, and Darryl "DMC" McDaniels—along with other major players on the scene across their lives and careers, illustrating the long road to the revolutionary marriage of rock and hip hop. Deeply researched and written in cinematic style, this music history is a must-read for fans of hip hop, rock, and everything in between.

Jane's Addiction's instantly-legendary catalog of albums spawned a generational movement that would change the face of rock n' roll forever, giving way to mainstream alternative rock in the 1990s. Recounts the stories of the music world's most notable recording studios and of history-making records that were made at each, from the John Coltrane sessions in Rudy Van Gelder's living room to Frank Sinatra's recordings at Capital Records.

Paul Thompson offers an alternative take on the romanticized and mythologized process of record-making. Side A illustrates how creativity arises out of a system in action, and introduces the history, culture, traditions and institutions that contribute to the process of commercial record production. Side B demonstrates this system in action during the central tasks of songwriting, performing, engineering and producing. Using examples from John Lennon, David Bowie, Tupac Shakur, Björk, Marta Salogni, Sylvia Massy and Rick Rubin, each chapter takes the reader
