A rich collection of vivid photographs, capturing images of the homes, cultures, people, and streets of the communities of the Cape Flats. Working during the late 1980s, Ledochowski highlights the vibrant cultures of the area. "Cape Flats" refers to the vast stretch of exposed sandy wetlands that lie north of Table Mountain and which now forms a large part of the metropolitan region of Cape Town. Racked by the harsh south-easter and frequently flooded in winter, the Cape Flats is highly unsuitable for residential purposes. But today it has become home to close on a million people. It was here that the apartheid government forcefully removed and restricted the 'non white'

population of Cape Town under the Group Areas Act. The creation of the 'Townships', defined by the Oxford Dictionary as "planned urban settlements of Black Africans or Coloreds", represented apartheid's attempt to plan, control, and regulate the lives of the Black majority. Far from being simply art-for-art's sake, much of this creativity is essentially functional and inextricably linked to the social fabric of the townships. For example, a decorative mural is on a wall that holds up a house; an artistic shebeen sign points people to a place of social activity; a display of religious paraphernalia provides the setting for a "home church". This documentary project was in no way an attempt at appropriating cultural artifacts from the townships. The creativity explored here does not offer any catalogue of township art available in the city's art galleries or craft markets, nor should it be read as an itinerary for an authentic township tour. It is rather an attempt to respectfully reveal aspects of our township culture that have hitherto remained largely hidden as peoples' protected spaces.

Originally published in 1986, this book discusses the various meanings which historians have given to the term 'American Revolution'. It can be seen as a revolutionary war of independence from Britain, but also a constitutional and ideological revolution within America. This survey firstly examines the view from Britain and the consequences of the policy of exerting closer financial control over its colonies. It

then discusses the colonists' perception of British actions and their responses which were to culminate in the Declaration of Independence. It concludes by examining the continuing revolution within America after the break with England. This will be of interest to A Level and introductory undergraduate course.

Learning Curves is a single dad, enemies to lovers, curvy girl rom-com with a teacher that everyone wished they had in school, and a swoon-worthy dad that would do anything for his daughter. Throw in an overeating dog and watch what happens next. To Spencer Hurley, women only left pain and destruction in their wake. The only good thing that came from his disaster of an ex was his daughter, Annabelle. Right now, making sure Belle was taken care of and getting her the help she needed with her learning disabilities was his only focus. And if that meant moving to a new town, consider the moving truck rented and packed. Ellie Ryan spent her childhood being judged and bullied because of her learning disabilities. Jokes on them, though, she was now the top special education teacher in her district. See, Ellie totally had her life together. Kind of. Maybe... Okay, really, she 's a word-vomiting, curvy, hot-mess, who hasn ' t had a date in who knows how long. And then there was Roxy, her rude overeating dog. Nevertheless, Ellie was fiercely protective of her students. She ' d gladly rip out the throat of anyone that dared to mess with her kids. Including their parents. So, please explain to Ellie why, even after calling her new student ' s father out during a disastrous parent-teacher meeting, Ellie couldn ' t help being insanely attracted to the gruff single dad? Somebody, please help her. Besides, nothing good could come from it... right?

I was too isolated. I was about to be evicted. I made a final desperate call to the man who ruined my life, but he didn't come for me. Someone else did. And then there was Seven. When I first woke in the cell, I thought he was my captor, but he is a pawn, like me. Seven is beautiful and kind. I want him so much I can barely breathe. He wants to protect me from our captor, but he can't. We are both locked inside a game neither of us can ever hope to win, and even though it's wrong, I'm starting to want both men, not just the good one... the monster as well. * This is a standalone dark contemporary romance
