Basically, the Strom. 175 CD 2 was fitted to cope with the emissions  
regulations and was designed to be set-up at the factory and not  
tampered with by owners, so adjustment of the mixture is not possible.  
However...there are ways of getting around this - 1) fit a different

Understanding the Zenith Stromberg 175 CD2 carburetor 19 February 2009, 04:59. I thought it might be useful to gather together advice on understanding the various features, mainly lesser known ones in the first place, of the Zenith 175 CD2 carburetors and their adjustment and possibly post them to the Wiki page on the Forum. I have one immediate query as follows: On the arm that holds the ...
