Help students identify and apply the real-world math skills they need for lifelong success. Math for College and Career Readiness provides grade-appropriate practice that offers early preparation for a variety of career paths. For each career, your students will strengthen fundamental math skills while gaining background information and becoming proficient problem solvers. Mark Twain Media Publishing Company specializes in providing engaging supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, this product line covers a range of subjects including math, science, language arts, social studies, history, government, fine arts, and character

Each page in the Common Core Math Workouts for grade 6 contains two "workouts"—one for skills practice and one for applying those skills to solve a problem. These workouts make great warm-up or assessment exercises. They can be used to set the stage and teach the content covered by the standards. They can also be used to assess what students have learned after the content has been taught. Content is aligned with the Common Core State Standards for Mathematics and includes Geometry, Ratio and Proportional Relationships, The Number System, Expressions and Equations, and Statistics and Probability. The workbooks in the Common Core Math Workouts series are designed to help teachers and parents meet the challenges set forth by the Common Core State Standards. They are filled with skills practice and problem-solving practice exercises that correspond to each standard. With a little time each day, your students will become better problem solvers and will acquire the skills they need to meet the mathematical expectations for their grade level.

Interactive Notebooks: Math for grade 7 is a fun way to teach and reinforce effective note taking for students. Students become a part of the learning process with activities about integers, proportions, expressions and inequalities, angle relationships, probability, and more! This book is an essential resource that will guide you through setting up, creating, and maintaining interactive notebooks for skill retention in the classroom. High-interest and hands-on, interactive notebooks effectively engage students in learning new concepts. Students are encouraged to personalize interactive notebooks to fit their specific learning needs by creating fun, colorful pages for each topic. With this note-taking process, students will learn organization, color coding, summarizing, and other important skills while creating personalized portfolios of their individual learning that they can reference throughout the year. Spanning grades kindergarten to grade 8, the Interactive Notebooks series focuses on grade-specific math, language arts, or science skills. Aligned to meet current state standards, every 96-page book in this series offers lesson plans to keep the process focused. Reproducibles are included to create notebook pages on a variety of topics, making this series a fun, one-of-a-kind learning experience.

Build students' math fluency with More Minute Math Drills: Multiplication and Division for grades 3–5. This 128-page book includes customizable drill pages for differentiating instruction, number searches, and color-by-number and matching activities. The book supports NCTM standards and includes reproducible award certificates and answer keys.

Want to develop better math skills when working with word problems? This updated edition can help anyone who wants to improve scores, supplement a current course of study, or brush up on basic problem-solving skills before taking a standardized math test. 501 Math Word Problems provides what people need most to improve their basic math skills quickly and effectively-practice! Gaining familiarity with this specific question type is a proven technique for increasing test scores. This book allows the student to implement a step-by-step approach to each math word problem encountered, avoiding the possibilities for careless mistakes. The format makes this book a valuable study tool for the SAT, GRE, GMAT, and other standardized tests.

Strengthen students' knowledge of basic math operations, fractions, decimals, geometry, algebra, metrics, and more! This fun, classroom supplement presents math skills reinforcement through crossword, word search, hidden number, and hidden message puzzles; quizzes and answer keys are also included. --Mark Twain Media Publishing Company specializes in providing captivating, supplemental books and decorative resources to complement middle- and upper-grade classrooms. Designed by leading educators, the product line covers a range of subjects including mathematics, sciences, language arts, social studies, history, government, fine arts, and character. Mark Twain Media also provides innovative classroom solutions for bulletin boards and interactive whiteboards. Since 1977, Mark Twain Media has remained a reliable source for a wide variety of engaging classroom resources.

Skill Builders are great tools for keeping children current during the school year or preparing them for the next grade level. A variety of fun and challenging activities provides students with practice and helps introduce basic skills to new learners. This full-color workbook contains appropriate passages and exercises based on national standards for sixth grade to help ensure that children master necessary math skills before progressing. Skill Builders combines entertaining and interactive activities with eye-catching graphics to make learning and reviewing fun and effective. The compact 6" x 9" size makes this book perfect for school, at home, or on the go. It features 80 perforated, reproducible pages and an answer key.

Focusing entirely on Number and Operations, this book delves into three major content areas of the NCTM standards—Number Systems, Operations, and Computation. Students explore the relationships between numbers, the meaning of various operations and how they relate, and the techniques that make computation a breeze. Various formats of questions allow students to address one or more of the NCTM process strands on each page. The standards correlation chart and icons at the top of each page identify effective activities utilizing Problem Solving, Reasoning and Proof, Communication, Connections, and Representation. Skill checks and cumulative tests are included as well as vocabulary cards to help reinforce mathematical terms and symbols. Answer key provided
