Pilsner, the world's most popular beer style and the best-selling alcoholic beverage of all time. Still, workers at the brewery would rally so they could have beer to toast their American, Canadian, and British liberators the following month. It was another twist in pilsner's remarkable story, one that started in a supernova of technological, political, and demographic shifts in the mid-1800s and that continues in the craft breweries of today. Tom Acitelli's *Pilsner: How the Beer of Kings Changed the World* tells that story. Pilsner shatters myths about pilsner's very birth and about its immediate parentage. Goose Island opened as a family-owned Chicago brewpub in the late 1980s, and it soon became one of the most inventive breweries in the world. In the golden age of light, bland and cheap beers, John Hall and his son Greg brought European flavors to America. An American success story and was a champion of craft beer. Then, on March 28, 2011, the Halls sold the brewery to Anheuser-Busch InBev, maker of Budweiser, the least craft-like beer imaginable. The sale forced the industry to reckon with craft beer's mainstream appeal and a popularity few envisioned. Josh Noel broke the news of the sale in the Chicago Tribune, and he covered the resulting backlash from Chicagoans and beer fanatics across the country as the discussion escalated into an intellectual craft beer war. Anheuser-Busch has since bought nine other craft breweries, and from among the outcry rises a question that Noel addresses through personal anecdotes from industry leaders: how should a

Industrial innovations in bottling, refrigeration, and TV advertising paved the way for the consolidation and market dominance of major macrobreweries like Anheuser Busch in America and Artois Brewery in Belgium during the twentieth century. We're now in the era of global integration -- one multinational AB InBev, claims 46% of all beer profits -- but there's a counterrevolution afoot of small, independent craft breweries in America, Belgium and around the world.
