The Black Death: A Timeline of the Gruesome Pandemic

The Black Death (also known as the Pestilence, the Great Mortality, or the Plague) was the deadliest pandemic recorded in human history. The Black Death resulted in the deaths of up to 75-200 million people in Eurasia and North Africa, peaking in Europe from 1347 to 1351. Plague, the disease, was caused by the bacterium *Yersinia pestis*.

Black Death

There were many theories at the time as to the origins of the Black Death. Some people proposed that the germs of this virulent disease hovered above pools of stagnant water in the swampy marshlands of Asia. Some suggested it started with the Jews polluting drinking water in the growing cities of Europe.

The Black Death

The black death or the bubonic plague occurred during the medieval times from 1347-1352. It wiped out almost half of the world's population at that time. A strain of virus called Y. Pestis was responsible for such pestilence. After reading this, I realised the seriousness of the present situation that we are in.

The Black Death: A History From Beginning to End (Pandemic ...)

This text is from a leading expert, a unique, character-driven and compellingly written narrative of the devastation wreaked on a small English village during the fourteenth century when the Black Death ravaged the countryside. In this new and fresh historical approach to the history of the Black Death, Professor John Hatcher recreates everyday life in a mid-fourteenth century parish in rural England.
