The Power of 10 is a practice for engaging our voice of wisdom through inquiry and advocacy. Inquiry raises our awareness of what is through inviting us to examine our current state of being; advocacy prompts us to live into what is possible. Together, inquiry and advocacy evoke the voice of wisdom—the quiet, still voice inside us, the confluence of knowledge, experience, and insight flowing through all living beings that speaks through our bodies, hearts, and minds. As we learn to listen to it closely, our voice of wisdom reveals our true nature and purpose, calls on us to commit to something greater, and guides us toward being our best selves in every thought, word, and action. At its heart, The Power of 10 sensitizes us to our own, unique purpose, and helps us discover that spark of the divine at the core of our being. Put simply, it is a practice for engaging your voice of wisdom to become the greatest you—the you who is meant to be.

There is only one boss. The customer. And he can fire everybody in the company from the chairman on down, simply by spending his money somewhere else. —Sam Walton What do your customers really want? "More for less," of course! They want more value, more service, more consistent delivery, more accuracy, and ever more responsiveness.They want less hassle, less bureaucracy, less sales pressure -- and, they want to pay "less" for this "more." Unless you can provide your customers with "more for less," you can be assured they will find someone else who can, and sooner rather than later. There's no magic to providing more for less, but it requires a management mindset that's different from the norm--and that's precisely what this book is about. The findings in the 2004-2005 Mindset Study, based on exclusive interviews with frontline executives, went into the making of this book. With clarity and insight, Spanyi has penned the definitive guide for business leaders who are determined to deliver more for less to their customers and shareholders.
