Part of the answer lies with motivated reasoning—the psychological phenomenon of preferring only evidence that backs up your belief—but in The Republican Brain, Mooney explains that is just the tip of the cognitive iceberg. There is a growing body of evidence that conservatives and liberals don't just have differing ideologies; they have different psychologies.

The Republican Brain: The Science of Why They Deny Science ...

The Republican Brain takes a different tack and reviews modern psychology and neuroscience for why people tend to think and act as they do. One good thing about Republicans: they tend to keep their lawns and yards neater than Democrats (and therefore for me – make better neighbors).

The Republican Brain: The Science of Why They Deny Science ...

Chris Mooney is the bestselling author of The Republican War on Science, the host of the "Point of Inquiry" podcast, and the author of "The Intersection" blog for Science Progress. In addition to three books, in the past he has written for Mother Jones, the American Prospect, Harper's, the Washington Post, USA Today, and Slate. He has appeared on The Last Word, The Daily Show, The Colbert Report ...

The Republican Brain: The Science of Why They Deny Science ...

Chris Mooney wrote The Republican Brain from a liberal perspective, geared toward other liberal readers. The majority of the book confirms opinions that many scientifically-minded liberals hold about conservative bias and adds the latest in psychological research to explain why the dissemination of facts has become highly polarized in this country.

The Republican Brain: The Science of Why They Deny Science ...

The Republican Brain: The Science of Why They Deny Science — and Reality is a 2012 book about the psychological basis for many Republicans' rejection of mainstream scientific theories, as well as theories of economics and history, by the journalist Chris Mooney.

The Republican Brain: The Science of Why They Don't ...

Back in 2013, a team of political scientists and neuroscientists got together to study how liberals and conservatives use different parts of the brain when making risky decisions. Their findings suggest that these brain regions can be used to predict which political party an individual prefers, and that being a Republican or Democrat truly does have an influence on how the brain functions.

Neuroscience Reveals the Differences Between Republican ...

Peering inside the brain with MRI scans, researchers at University College London found that self-described conservative students had a larger amygdala than liberals. The amygdala is an...
