Author and veteran piano instructor Deborah Rambo Sinn tackles a different interpretive principle, explaining clearly, for example, how to play effective ornaments and rubatos. As a whole, the book helps pianists understand concrete ways to apply interpretive concepts to their own playing and gives teachers practical ways to teach interpretation to their students. The book is illustrated with over 200 repertoire excerpts and supplemented by a companion website with over 100 audio recordings. Playing Beyond the Notes is essential reading for all performing pianists, independent piano teachers, and piano pedagogy students.
