From Brian Greene, one of the world's leading physicists and author of the Pulitzer Prize finalist *The Elegant Universe*, comes a grand tour of the universe that makes us look at reality in a completely different way. Space and time form the very fabric of the cosmos. Yet they remain among the most mysterious of concepts. Is space an entity? Why does time have a direction? Could the universe exist without space and time? Can we travel to the past? Greene has set himself a daunting task: to explain non-intuitive, mathematical concepts like String Theory, the Heisenberg Uncertainty Principle, and Inflationary Cosmology with analogies drawn from common experience. From Newton's unchanging realm in which space and time are absolute, to Einstein's fluid conception of spacetime, to quantum mechanics' entangled arena where vastly distant objects can instantaneously coordinate their behavior, Greene takes us all, regardless of our scientific

Recent discoveries in astronomy have revolutionized the field of cosmology. While many long-standing questions in cosmology have now been answered, the new data pose new mysteries such as the nature of the "dark energy" that dominates the universe. This second edition provides an accessible and thorough text on the physics of cosmology and a lively account of the modern concordance model of the universe, from the big bang to a distant future dominated by dark energy.

New York Times bestselling author Dave Hollis knows what it feels like to realize you've been sailing off of someone else's map. He has taken control of his life and future, and he's ready to share the lessons he learned along the way with readers who are facing similar struggles. Dave Hollis was recently confronted with the fact that he was living the life someone else wanted for him. After weathering a highly publicized personal crisis amid the backdrop of an international pandemic and navigating the enjoyable but unpredictable waters of being a single father to four kids, he has been forced to become the captain of his own life and is ready to teach others how to do the same. Built for Courage will help you: Dive deeper into the stories, values, and beliefs you attach yourself to and decide once and for all

Rediscover the gift of Advent that comes without packages, ribbons, and bows. We don't know why the Grinch hated Christmas. We just know he did. In this new Advent study, Matt Rawle explores the faith themes in the Christmas classic, *How the Grinch Stole Christmas!* including, how did the Grinch's heart grow three sizes come Christmas morning? How did Christmas save the Grinch? Could it be that the very thing we think we hate is the one thing that changes our lives? This Advent and Christmas season, look at a familiar classic through the lens of faith and see how Christ speaks to us through our culture. The Youth Study Book interprets the Grinch, his struggles, and his redemption in a way that youth can relate to and understand, using humor, down-to-earth discussion, and examples from contemporary culture. For young people grades 6-12. Includes leader helps with discussion questions that can be used with the adult-level DVD.
