~~User Guide For
Nikon D3000~~

I like the 3D mode,
in which the D3000
magically moves
the sensor around
on its own to track
the subject, if either
it or you move. You
set this at: MENU
> CAMERA > AF
area mode > 3D-
tracking > OK.

Once set, you're all

Read Book User Guide For Nikon

~~D3000~~ set for shooting anything from sports to still lifes, since the default AF-A mode magically optimizes the D3000 for everything. All you do is pick a sensor for starters and go.
