The general solution of it is Equation (5.4), namely.

$$y=f(x - vt)+g(x+vt).$$

(5.4) The wave equation (5.23) and its general solution apply to all waves that travel in one dimension. For example, they describe sound waves in a long tube where

emphasises physical principles, rather than the mathematics.

Each topic begins with a discussion of the physical characteristics of the motion or system.

The mathematics is kept as clear as possible, and includes elegant mathematical descriptions where possible. Designed to
