So far, I am pleased with the third edition of the Web Style Guide by Patrick J. Lynch and Sarah Horton. It is well organized and written in such a way that both the novice and the expert website designer can read it and gain helpful information. The language level is not

too "techie" for the novice and is not condescending for the expert.

Learn that the slogan  
“If you build it, they  
will come” was a  
hollow joke: You have  
to build it well,  
thoughtfully and  
ambitiously and  
inventively, and then  
you have to keep  
rethinking it and  
rebuilding it, if you  
have any hope of  
attracting a crowd.
